Walk and Plant Reflectors
Models 6100-T10 and 6200-T10

Wendelighting Walk and Plant Reflectors are designed for the professional landscape architect who values contemporary styling, quality and long lasting dependability in his lighting equipment.

After many years of designing and manufacturing custom lighting equipment, Wendelighting engineers developed these modern, low-profile fixtures to enhance a broad range of landscape and architectural settings.

Here is a blend of functional styling for eye-pleasing daylight viewing and inconspicuous concealed lighting for nighttime. Wendelighting Reflectors offer soft, glare-free illumination especially suited for garden, patio and walk applications. They're safe-listed by Underwriters' Laboratories, Inc. And, they're easy-to-install, require simple maintenance and are trouble free.

When you specify Wendelighting equipment, the additional nighttime viewing pleasure will speak for itself.

GUARANTEE

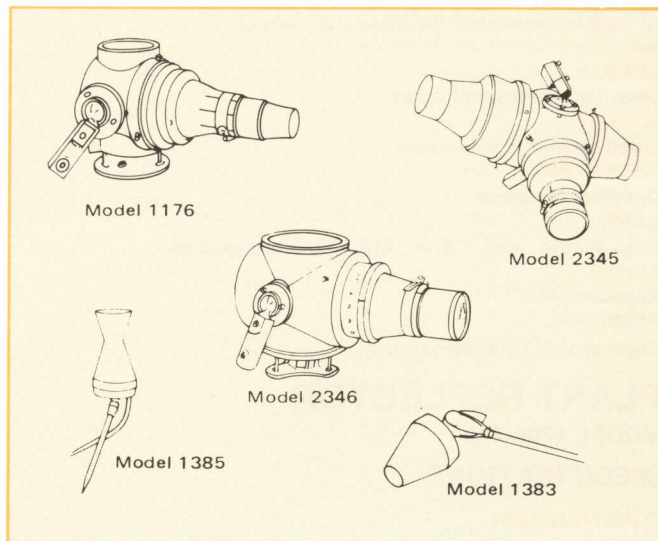

Wendelighting Walk and Plant Reflectors are guaranteed by the manufacturer against defects for the period of one year. Repair or replacement of defective parts will be made at the factory during this period. Terms of the guarantee do not cover damage resulting from tampering or mistreatment of the fixtures.

OTHER WENDELIGHTING PRODUCTS

Wendelighting also manufactures other lighting equipment for both interior and exterior applications. Wendel Optical Projectors, such as models 1176 and 2346, are ideal for illuminating art, antiques and furniture. Model 2345 is an optical projector for lighting fountains, garden sculpture and other exterior focal points. Model 1383 is a small aperture, low voltage floodlight for wall washes. For planters, Wendelighting offers the low voltage, all metal model 1385. Specification material is available for all of these products on request.

CONSULTATIONS

Jacksen International Ltd. manufactures and installs the equipment described in this bulletin. In addition, staff members are available for consultation on all types of lighting problems and on the selection of all types of equipment.
