Model 2350C
Canopy Mount
Optical Projector

Wendelighting optical projectors offer the architect, lighting engineer and interior designer the ultimate in controlled illumination for interior settings.

The Wendel® projector combines an optical system of precision ground lenses, reflector, and a unique light masking technique. The result is a highly intensified light that is artistically confined to the exact area of interest regardless of shape.

Wendelighting's Model 2350 lighting system provides the specifier an alternative to our recessed attic installed optical projector. The Wendel canopy lighting system includes a sturdy fastening design to provide support to both sides of the projector keeping it securely positioned. The 4-1/2" diameter canopy connects to one of two Y yokes depending on the choice of 250 or 400 watt projector model.

Consultations

Jacksen International Ltd. manufactures and offers optional installation for the equipment described in this bulletin. In addition, staff members are available for consultation. For further information, please write or call.

**Model 2350C
250 Watt Shown**

SPECIFICATIONS

Applications: Large focal points, paintings, sculpture, corporate logos, gobo patterns, and tables

Power: 120 VAC

Lamp: Specify Quartz 250 or 400 Watt Q/CL mini-can screw base 2,000 hr. life

Weight: 9 lbs.

Objective Lenses: Preset by Factory

Condensing Lens: 3

Spherical Reflector: 1

Construction: Cast Aluminum
