Model 2396P
Metal Halide - Top Access
Recessed Optical Projector

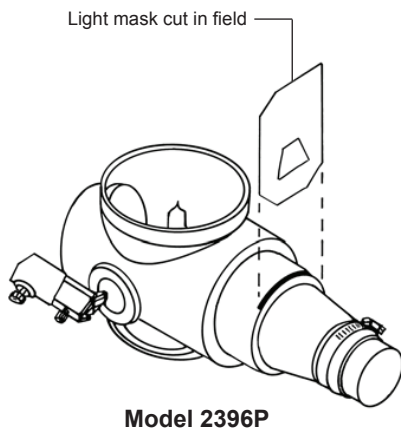

Wendelighting optical projectors offer the architect, lighting engineer and interior designer the ultimate in controlled illumination for interior settings.

For use with Top Access Housings, the Wendel® projector combines a metal halide light source with our optical system of precision ground lenses, reflector, and a unique light masking technique. In addition to three condensing lenses, the projectors are factory assembled with a custom combination of objective lenses to meet the beam spread requirement. The result is a highly intensified light that is artistically confined to the exact area of interest regardless of shape.

Typical applications include: large paintings, sculpture, antiques, religious articles, trophies, furniture and various other architectural focal points. Frequently one projector is used to provide separate light maskings for multiple objects.

Consultations

Jacksen International Ltd. manufactures and offers optional installation for the equipment described in this bulletin. In addition, staff members are available for consultation. For further information, please write or call.

Model 2396P

SPECIFICATIONS

Applications:	Large focal points, paintings, sculpture, corporate logos, gobo patterns, and tables
Power:	120 VAC
Lamp:	Philips CDM 150/T6/830 (12,000 hr. life)
Weight:	9 lbs.
Objective Lenses:	Preset by Factory
Condensing Lens:	3
Spherical Reflector:	1
Construction:	Cast Aluminum
Relamping:	Does not change focus
Listing:	Not Listed - Non IC - Not Air Tight
Accessory:	FADE IN® Optics for a Loosely Conforming Border
