

WENDELIGHTING®

DIVISION OF JACKSEN INTERNATIONAL LTD

Wenlux® 415HIC
Recessed Housing

The Wenlux® Recessed Housing provides multi-function fine lighting flexibility. Options include the renowned Wenlux Framing Projector, Accent Light and Wash Light. The Adjustable Ceiling Collar accommodates ceiling thicknesses ranging from 5/8" to 1 7/16". Accessory flush trim flanges are available for a seamless, flush to ceiling, field-paintable trim finish.

The housing provides top or bottom re-lamping access. Each housing comes prewired with quick disconnects to modular components. Each complies with Air Tight requirements and is listed by Underwriter Laboratories for direct insulation contact. Universal mounting brackets are included for new construction, existing top access construction, framing light, accenting or washing.

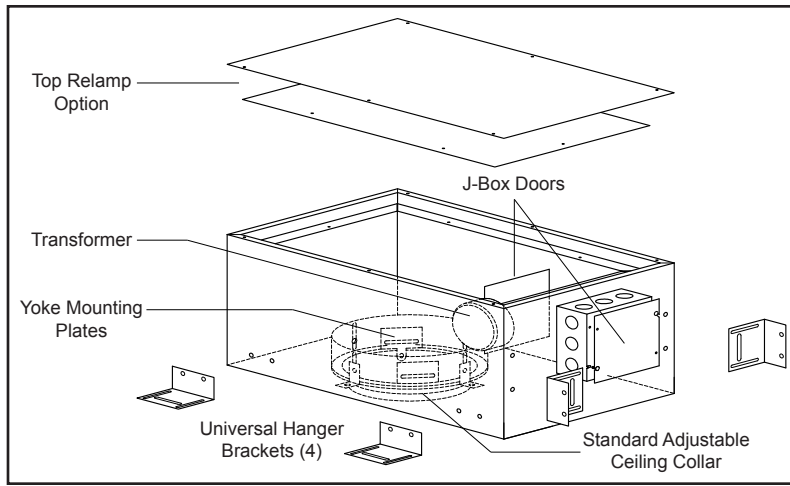

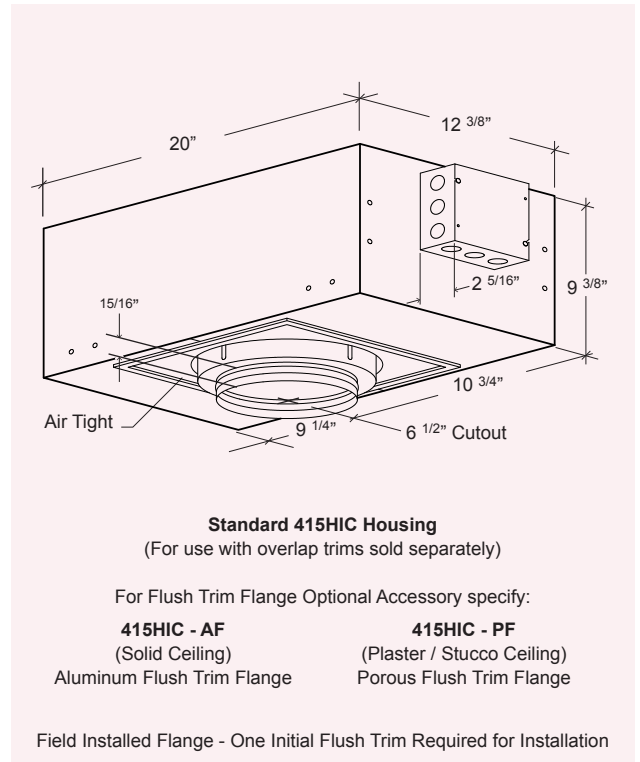

A quiet toroidal transformer delivers stable, near 12 Volt power using dimmed or switched quick disconnect taps. Up to 50 Watt IR Lamps having 75 Watt performance are compatible in this energy efficient Recessed Housing.

How to Specify

Refer to Recess Housing Placement sheets to determine Projector or Wash Light Locations. For Specification assistance, call or email info@wendelighting.com. Staff members are also available for jobsite consultation on a fee basis to assist in Wendel® product specification.
