

The Wenlux® 717BL is a Surface Accent light with a Beam Mounting system. A white high color rendering LED light was discriminately selected to enhance fine art and furnishings.

The Wenlux LM2 (2 wire) and LM4 (4 wire) Lighting Modules are inseparable. The LM Lighting Modules include the driver, LED Chip, proprietary optics and cooling system. Lighting Modules accept the Accent Light (Adapter Cone) to which a series of adjustable Lens Holder Tubes with spherical lenses are positioned within to optically control variable beam spreads. Beam spreads can be further altered using Light Control Accessories. Multiple Light Control Accessories can be positioned within the rotational Lens Holder Cone.

717BL provides rotational adjustment using lockable fastening systems. A dual heat sink technology provides optimum LED cooling. A separable beam mount wiring box houses the LED Driver. The wiring box can be fastened to the side of an exposed beam, wall, or directly to a wood or concrete ceiling.

Wendelighting reserves the right to make changes without notice.

LM2P LIGHTING MODULE SPECIFICATIONS (CA T24-JA8)

- Power:** 120/277 VAC Input - 20 Watts
- Wire Box:** Wiring Box Houses Driver
- Driver:** (LM2P) Philips Xitanium 120 VAC Input - 500mA Output - 2 Wire Forward / Reverse Phase - Dimmable 2%
- LED:** LM with 2790 Chip and Primary Optics to be JA8 Tested - 1300 Lumens - 67 Lumens/Watt (All LED Chip Options pending JA8 Allowance)
- Optics:** Proprietary
- Luminaire:** Aluminum
- Dimmer:** 2 Wire Forward / Reverse Phase
- Mounting:** Beam - Ceiling - Wall
- Listings:** - Pending UL / CUL - Damp Location - Dead End Class 1 Wiring Only (No Feed Through)
- Pending California Title 24 Residential Lighting JA8 Recessed Tested Listing (See wendelighting.com/resources)
