

The Wenlux® RET- 415AL Recessed LED Accent Light is designed for retrofit into an existing Wenlux 415HIC Recessed Housing without re-wiring. Dimmer replacement and or dimmer re-programming may be required. The existing Wenlux 415HIC Recessed Housing provides the Retrofit LED Accent Light with rotational adjustment using existing lockable fastening systems. The existing Ceiling Trim is re-usable and not included in the retrofit kit.

The existing 415HIC Recessed Housing includes a field removable 12 Volt transformer connected electrically by disconnects. The field removed 12 Volt Transformer is replaced by a provided LED Driver electrically connected to the same disconnects.

The inseparable LM2 (2 wire) Lighting Modules include the LED Driver, LED Chip, proprietary optics and dual heat sink technology delivering optimum LED cooling. Lighting Modules are assembled with the Accent Light (Adapter Cone) to which a series of Lens Holder Tubes with spherical lenses are positioned within to optically control variable beam spreads. The Luminaire's beam spreads can be further altered using a series of Light Control Accessories. A white high color rendering LED light was discriminately selected to enhance fine art.

Patent 6,612,0761B2

LM2P LIGHTING MODULE SPECIFICATIONS (CA T24-JA8)

Power:	120/277 VAC Input - 20 Watts
Driver:	(LM2P) Philips Xitanium 120 VAC Input - 500mA Output - 2 Wire Forward / Reverse Phase - Dimmable 2%
LED:	LM with 2790 Chip and Primary Optics to be JA8 Tested - 1300 Lumens - 67 Lumens/Watt (All LED Chip Options pending JA8 Allowance)
Optics:	Proprietary
Luminaire:	Aluminum
Dimmer:	2 Wire Forward / Reverse Phase
Mounting:	Adjustable Locking Crossmember to Yoke
Rotation:	0° - 45° Vertical Tilt / 361° Horizontal Rotation
Listings:	- Pending UL / CUL - Retrofit - Damp Location - Thermal Foldback Protection - Pending California Title 24 Residential Lighting JA8 Recessed Tested Listing (See wendelighting.com/resources)

415HIC - RECESSED HOUSING LED RETROFIT

INSULATION CONTACT / AIR TIGHT

ATTIC AND BUILDING ENVELOPE INSTALLATION

MINIMUM R38 INSULATION SURROUNDING AND COVERING RECESSED HOUSING REQUIRED FOR LED ASSEMBLY LIFE

- THE LED RETROFIT IS DESIGNED FOR USE WITH AN EXISTING WENLUX 415HIC RECESSED HOUSING
- THE LED RETROFIT DOES NOT REQUIRE CEILING DAMAGE
- THE LED RETROFIT WORKS WITH EXISTING WIRING
- EXISTING DIMMER MIGHT NEED TO BE REPLACED AND OR DIMMER MODULE RE-PROGRAMMING MAY BE REQUIRED DEPENDING ON THE DIMMING CONTROLS USED
